## INDEPENDENT AUDITOR'S REPORT

November 27, 2012

Honorable John A. Alario, Jr., Co-Chair  
Honorable Charles E. Kleckley, Co-Chair  
Legislative Budgetary Control Council  
State of Louisiana  
Baton Rouge, Louisiana

We have audited the accompanying financial statements of the Legislative Budgetary Control Council, State of Louisiana as of and for the year ended June 30, 2012, as listed in the index to report. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements of the Legislative Budgetary Control Council, State of Louisiana, are intended to present the financial position and results of operations of only that portion of the financial reporting entity of the State of Louisiana.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Legislative Budgetary Control Council, State of Louisiana as of June 30, 2012, and the respective changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2012, on our consideration of the Legislative Budgetary Control Council, State of Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 4 and 21 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Legislative Budgetary Control Council, State of Louisiana's basic financial statements as a whole. The required supplementary information on page 22 is presented for purposes additional analysis as required by the Governmental Accounting Standard Board (GASB) and is not a required part of the basic financial statements. The required supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

LEGISLATIVE BUDGETARY CONTROL COUNCIL  
STATE OF LOUISIANA  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
AS OF AND FOR THE YEAR ENDED JUNE 30, 2012

This section of the Legislative Budgetary Control Council, State of Louisiana (Council) annual financial report presents management's analysis of the Council's financial performance for the year ended June 30, 2012. This analysis should be read in conjunction with the audited financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

The Council's net assets increased by \$20,161,763. This resulted primarily from significant increases in appropriations in the current year for the Legislative Capitol Technology Enhancement Fund and the State Capitol HVAC Replacement and Renovations project, as well as decreases in expenditures due to the completion of various projects.

The general revenues of the Council were \$32,749,917, which is an increase of \$16,741,476 from the prior year. The significant increase is a result of additional appropriations received in the current year for projects and renovations. Prior year revenues did not include appropriations for the Technology Enhancement projects and Capitol renovations.

The total expenditures/expenses of the Council were \$11,577,183, which is a decrease of \$7,173,036 from the prior year. The decrease is a result of capital outlay expenditures for the Technology Enhancement projects and Capitol renovations decreasing due to project completions in the current year.

The other financing uses of the Council were \$1,010,971, which is an increase of \$283,007.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of three sections: management's discussion and analysis, basic financial statements and required supplementary information. The basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements.

BASIC FINANCIAL STATEMENTS

The financial statements of the Council report information about the Council using accounting methods similar to those used by private companies. These financial statements provide financial information about the activities of the Council.

The Governmental Fund Balance Sheet/Statement of Net Assets (page 5) presents the current and long-term portions of assets and liabilities separately.

The Statement of Governmental Fund Revenues, Expenditures and Changes in the Fund Balance/Statement of Activities (page 6) presents information on how the Council's net assets changed as a result of current period operations.

LEGISLATIVE BUDGETARY CONTROL COUNCIL  
STATE OF LOUISIANA  
NOTES TO THE FINANCIAL STATEMENTS  
JUNE 30, 2012

NATURE OF OPERATIONS:

The Legislative Budgetary Control Council, State of Louisiana, (the Council) created by Title 24, Section 38 of the Louisiana Revised Statutes, maintains rules and regulations designed to control the budget and spending procedures within the Legislative branch of government, approves budget requests for all legislative budget units and funds projects for the Legislature such as the joint computer operations, upkeep and renovations of the Capitol complex and funding of national legislative organizations. Appropriated funds are allocated to the Council to defray the expenses of the Louisiana Legislature, including the expenses of the House of Representatives, the Senate, Louisiana Law Institute, Legislative Auditor, and the Legislative Fiscal Office.

The Council is composed of twelve members and four employees.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Government accounting principles and practices are promulgated and established by the Governmental Accounting Standards Board (GASB). The GASB has issued a *Codification of Governmental Accounting and Financial Reporting Standards*. This codification and subsequent GASB pronouncements are recognized as accounting principles generally accepted in the United States of America for state and local governments. The accompanying financial statements have been prepared in accordance with such pronouncements.

The following is a summary of the more significant accounting policies.

Financial Reporting Entity – Application of Section 2100 of the GASB Codification defines the governmental reporting entity (in relation to the Legislative Budgetary Control Council, State of Louisiana) to be the State of Louisiana. The accompanying financial statements of the Legislative Budgetary Control Council contain sub-account information of the General Fund of the State of Louisiana. Annually, the State of Louisiana issues financial statements, which include the activity contained in the accompanying financial statements. However, the activity may be presented or classified differently due to perspective differences. The Legislative Budgetary Control Council has no fiduciary funds or component units.

Fund Accounting – The Legislative Budgetary Control Council uses fund accounting (separate set of self-balancing accounts) to reflect the sources and uses of available resources and the budgetary restrictions placed on those funds by the Louisiana Legislature. The Legislative Budgetary Control Council has only a general fund, which is used to account for all of the Legislative Budgetary Control Council's activities, including the servicing of long-term liabilities.

LEGISLATIVE BUDGETARY CONTROL COUNCIL  
STATE OF LOUISIANA  
NOTES TO THE FINANCIAL STATEMENTS  
JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Basis of Accounting:

Basis of accounting refers to when revenues and expenditures are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The Legislative Budgetary Control Council presents a Statement of Net Assets and Statement of Activities. These statements reflect entity-wide operations of the Legislative Budgetary Control Council. The Legislative Budgetary Control Council has only a General Fund, supported by an appropriation from the State of Louisiana and self-generated funds.

Within the accompanying statements, the General Fund column of the Statement of Net Assets and the Statement of Activities reports all activities of the Legislative Budgetary Control Council using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Management considers revenues to be available if they are collected within 45 days of the end of the current fiscal period. However, as management considers it available regardless of when received, the legislative appropriation is recorded during the year, and for the year, the appropriation is made, and interest and other revenues are recorded when earned. Expenditures are recorded when a liability is incurred, as in accrual accounting. However, compensated absences and other postemployment benefits (OPEB) costs are recorded when payment is due.

The General Fund column is adjusted to create a Statement of Net Assets and Statement of Activities. Within this column, amounts are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Budgetary Practices:

The Legislative Budgetary Control Council is required to submit to the members of the Council an estimate of the financial requirements for the ensuing fiscal year. The General Fund appropriation is enacted into law by the Legislature and sent to the Governor for his signature. The Legislative Budgetary Control Council is authorized to transfer budget amounts between accounts in the General Fund. Revisions that alter total appropriations must be approved by the Legislature. The level of budgetary responsibility is by total appropriation. All annual appropriations lapse at fiscal year end, and require that any amount not expended or encumbered at the close of the fiscal year be returned to the State General Fund unless otherwise reappropriated by subsequent Legislation action. Current appropriation legislation authorizes such reappropriation of prior year funds.

LEGISLATIVE BUDGETARY CONTROL COUNCIL  
STATE OF LOUISIANA  
NOTES TO THE FINANCIAL STATEMENTS  
JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Budgetary Practices: (Continued)

The budget of the General Fund is prepared on the budgetary (legal) basis of accounting. In compliance with budgetary authorization, the Legislative Budgetary Control Council includes the prior year's fund balance represented by appropriate liquid assets remaining in the fund as a budgeted revenue in the succeeding year. The result of operations on a GAAP basis does not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

Encumbrance accounting is used during the year to reserve portions of the annual appropriation for unfilled purchase orders. Year-end encumbrances are not charged against the current year appropriation and are carried forward into the next budget year.

Leave Benefits:

Accumulated unpaid annual, sick and compensatory leave is reported in the Statement of Net Assets and Statement of Activities within the accompanying financial statements. The Legislative Budgetary Control Council, State of Louisiana's employees accrue unlimited amounts of annual and sick leave at varying rates as established by the Legislative Budgetary Control Council's personnel practices. Upon resignation or retirement, unused annual leave of up to 300 hours is paid to employees at the employee's current rate of pay. Upon retirement, annual leave in excess of 300 hours and unused sick leave are credited as earned service in computing retirement benefits.

Furthermore, employees earn compensatory leave for hours worked in excess of 40 hours per work week. The compensatory leave may be used similarly to annual or sick leave. At June 30, 2012 annual leave of up to 300 hours, for which employees could be paid upon resignation or retirement, and compensatory leave, computed in accordance with the Codification of Governmental Accounting and Financial Reporting Standards Section C60.105, totaled \$41,338.

The following are the changes in compensated absences during the year:

<u>Balance</u> <u>July 1, 2011</u>	<u>Net Change</u>	<u>Balance</u> <u>June 30, 2012</u>
<u>\$43,494</u>	<u>\$ (2,156)</u>	<u>\$ 41,338</u>

The additions and reductions to compensated absences during 2011-2012 fiscal year represents the net change during the year because the additions and reductions could not be readily determined.

LEGISLATIVE BUDGETARY CONTROL COUNCIL  
STATE OF LOUISIANA  
NOTES TO THE FINANCIAL STATEMENTS  
JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Postemployment Benefits:

The Legislative Budgetary Control Council provides certain health care and life insurance benefits for retired employees. Substantially all of the Council's employees may become eligible for those benefits if they reach normal retirement age while working for the Council. These benefits for retirees and similar benefits for active employees are provided through the State's Office of Group Benefits Plan and the LSU System Health Plan. Monthly premiums are paid jointly by the employee and the Council. The Council recognizes the cost of providing these benefits as an expenditure in the year paid in the General Fund. For the year ended June 30, 2012, those costs totaled \$15,210, which covered two retired employees, funded through the legislative appropriation.

Fund Balance:

During the fiscal year ended June 30, 2011, the Council implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. Fund balance is classified in the following components:

- *Nonspendable* includes fund balance amounts that cannot be spent either because it is in nonspendable form (such as inventory) or because of legal or contractual constraints.
- *Restricted* includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers (such as grantors, bondholders, and higher levels of government) or amounts constrained due to constitutional provisions or enabling legislation.
- *Committed* includes fund balance amounts that are constrained for specific purposes that are internally imposed by the Council itself, using its highest level of decision-making authority. To be reported as *committed*, amounts cannot be used for any other purpose unless the Council takes the same highest level action to remove or change the constraint.
- *Assigned* includes fund balance amounts that the Council intends to use for a specific purpose that are neither considered restricted nor committed. Intent can be expressed by the Council or by an official or body to which the Council delegates the authority.
- *Unassigned* fund balance amounts include the residual amounts of fund balance which do not fall into one of the other components. Positive amounts are reported only in the general fund.

LEGISLATIVE BUDGETARY CONTROL COUNCIL  
STATE OF LOUISIANA  
NOTES TO THE FINANCIAL STATEMENTS  
JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Fund Balance: (Continued)

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Council considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Council considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Council has provided otherwise in its commitment or assignment actions. The Council does not have a formal minimum fund balance policy.

Net Assets:

Net assets comprise the various net earnings from revenues and expenses. As of June 30, 2012, all net assets are classified as unrestricted, consisting of resources derived from, state appropriations, interest earnings, and other miscellaneous sources. These resources are used for transactions relating to general operations of the Council and may be used at its discretion to meet current expenses and for any purpose.

2. CASH IN BANK:

Under State law, the Legislative Budgetary Control Council may deposit funds in an approved bank located in the State selected and designated by the presiding co-chairman of the Council. These public deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank.

At June 30, 2012, the carrying amount of the Legislative Budgetary Control Council's cash account was \$16,919,563, and the bank balance was \$16,977,955. All cash was covered by federal depository insurance or pledged securities held by the Federal Reserve Bank in the name of the Legislative Budgetary Control Council.

3. RETIREMENT SYSTEM:

Plan Description:

Substantially all employees of the Council participate in the Louisiana State Employees' Retirement System (LASERS), considered to be a single-employer defined benefit plan due to a material portion of its activity being with one employer, the State of Louisiana. The pension plan is administered by a separate Board of Trustees. The plan provides retirement, disability, and survivor benefits to participating, eligible employees. Benefits are established and amended by state statute and guaranteed by the State of Louisiana under provisions of the Louisiana Constitution of 1974. LASERS issues a publicly available financial report that includes financial statements and required supplementary information. The reports may be obtained by writing to Louisiana State Employees' Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0600.

Funding Policy:

Plan members of the Legislative Budgetary Control Council, State of Louisiana are required by state statute to contribute 7½% or 8% (depending on their date of hire) of their annual covered salary to LASERS, respectively and the Council (as their employer) is required to contribute at an actuarially determined rate. The current employer rate is 25.6% of annual covered payroll. The contribution requirements of plan members are established by and amended by state law. As required by state law, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The State of Louisiana funds the employer contribution through the annual legislative appropriation. The Council's employer contributions to LASERS for the years ended June 30, 2012, 2011 and 2010, which were equal to the required contributions for each year, were \$74,321; \$66,359; and \$54,929, respectively.

4. POSTEMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS:

Substantially all Council employees become eligible for postemployment health care and life insurance benefits if they reach normal retirement age while working for the Council. The Legislative Budgetary Control Council offers its employees the opportunity to participate in one of two medical coverage plans. One offering is from the State Office of Group Benefits (OGB) which also offers a life insurance plan, and the other is with the LSU System Health Plan. Information about each of these two plans is presented below.

LEGISLATIVE BUDGETARY CONTROL COUNCIL

4. POSTEMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS: (Continued)

PLAN DESCRIPTIONS:

LSU System Health Plan:

The Legislative Budgetary Control Council is one of a limited number of state agencies that may participate in the LSU System Health Plan. The state agency participation is not material and, as such, the plan is identified as a single-employer defined benefit healthcare plan that is not administered as a trust or equivalent arrangement. The Health Plan offers eligible employees, retirees, and their beneficiaries the opportunity to participate in comprehensive health and preventive care coverage that gives members a unique, consumer-driven health-care approach to pay routine health expenses and provides coverage for major healthcare expenses. Within the Health Plan members have a choice of selecting Option 1 or Option 2. Option 1 is more costly, but features both lower yearly deductibles and out-of-network coinsurance requirements. Effective July 1, 2010, eligible retirees were provided \$25,000 in life insurance coverage for their lifetime at no cost to the retiree.

The LSU System Health Plan selects claim and pharmaceutical administrators to administer its program. Both claim and pharmacy administrators are selected through a formal Request for Proposals process followed by negotiations between the System and qualified vendors.

The LSU System Health Plan originally began as a pilot program within the State Office of Group Benefits (OGB), the office that provides health benefits to state employees. The Health Plan does not issue a publicly available financial report, but it is included in the LSU System's audited Financial Report. The Financial Report may be obtained from the LSU System's website at <http://www.lsusystem.lsu.edu/>.

State OGB Plan:

Legislative Budgetary Control Council's employees may participate in the State of Louisiana's Other Postemployment Benefit Plan (OPEB Plan), an agent multiple-employer defined benefit OPEB Plan that provides medical and life insurance to eligible active employees, retirees and their beneficiaries. The Office of Group Benefits administers the plan. LRS 42:801-883 assigns the authority to establish and amend benefit provisions of the plan. The Office of Group Benefits does not issue a publicly available financial report of the OPEB Plan; however, it is included in the State of Louisiana's Comprehensive Annual Financial Report (CAFR). You may obtain a copy of the CAFR on the Office of Statewide Reporting and Accounting Policy's website at [www.doa.la.gov/osrap](http://www.doa.la.gov/osrap).

FUNDING POLICIES

LSU System Health Plan:

While actuarially determined, the plan rates must be approved by OGB under LRS 42:851.B. Plan rates are in effect for one year and members have the opportunity to switch providers during the open enrollment period which usually occurs in October.

The plan is financed on a pay as you go basis. The pay-as-you-go expense is the net expected cost of providing retiree benefits. This expense includes all expected claims and related expenses and is offset by retiree contributions.

Depending upon the Option selected, during the year ended June 30, 2012, employee premiums for a single member receiving benefits range from \$74 to \$85 per month for retiree-only coverage with Medicare or from \$126 to \$146 per month for retiree-only coverage without Medicare. The premiums for the year ended June 30, 2012 for a retiree and spouse range from \$128 to \$294 per month for those with Medicare or from \$324 to \$427 per month for those without Medicare.

The Legislative Budgetary Control Council contributed anywhere from \$220 to \$255 per month for retiree-only coverage with Medicare or from \$888 to \$963 per month for retiree-only coverage without Medicare during the year ended June 30, 2012. Also, the Legislative Budgetary Control Council's contributions ranged from \$385 to \$881 per month for retiree and spouse with Medicare or \$1,466 to \$1,532 for retiree and spouse without Medicare.

State OGB Plan:

The contribution requirements of plan members and the Council are established and may be amended by LRS 42:801-883. Employees do not contribute to their postemployment benefits cost until they become retirees and begin receiving those benefits. The retirees contribute to the cost of retiree healthcare based on a service schedule. Contribution amounts vary depending on what healthcare provider is selected from the plan and if the member has Medicare coverage. The OGB offers four standard plans for both active and retired employees: the Preferred Provider Organization (PPO) Plan, the Health Maintenance Organization (HMO) Plan, the Medical Home HMO (MH-HMO), and the Regional HMO Plan. The OGB also offers a Consumer Driven Health Plan with a Health Savings Account option (CDHP-HSA). Retired employees who have Medicare Part A and Part B coverage also have access to OGB Medicare Advantage plans. Depending upon the plan selected, during fiscal year 2012, employee premiums for a single member receiving benefits range from \$85 to \$94 per month for employee-only coverage with Medicare or from \$138 to \$155 per month for employee-only coverage without Medicare. The premiums for an employee and spouse for the year ended June 30, 2012 range from \$150 to \$346 per month for those with Medicare or from \$441 to \$503 per month for those without Medicare.

FUNDING POLICIES: (Continued)

State OGB Plan: (Continued)

The plan is currently financed on a pay as you go basis, with the Legislative Budgetary Control Council contributing anywhere from \$256 to \$281 per month for retiree-only coverage with Medicare or from \$878 to \$997 per month for retiree-only coverage without Medicare during fiscal year 2012. Also, the Legislative Budgetary Control Council contributions range from \$450 to \$1,038 per month for retiree and spouse with Medicare or \$1,342 to \$1,532 for retiree and spouse without Medicare during the year ended June 30, 2012.

OGB also provides eligible retirees Basic Term Life, Basic Plus Supplemental Term Life, Dependent Term Life and Employee Accidental Death and Dismemberment coverage, which is underwritten by The Prudential Insurance Company of America. The total premium is approximately \$1 per thousand dollars of coverage of which the employer pays one half of the premium. Maximum coverage is capped at \$50,000 with a reduction formula of 25% at age 65 and 50% at age 70, with accidental death & dismemberment coverage ceasing at age 70 for retirees.

ANNUAL OPEB COST:

The Legislative Budgetary Control Council's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, would cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. A level percentage of payroll amortization method, open period, was used. The total ARC for the fiscal year beginning July 1, 2011 was \$18,670.

The following table presents the Legislative Budgetary Control Council's OPEB Obligation for year ended June 30, 2012. The table shows the components of each plan's annual OPEB cost for the year ended June 30, 2012, the amount actually contributed to the plan, and changes in the plan's net OPEB obligation to the retiree health plan:

	<u>Office of Group Benefits Plan</u>	<u>LSU System Health Plan</u>	<u>Total</u>

The Legislative Budgetary Control Council's annual OPEB cost, the percentage of annual OPEB cost contributed to the plans, and the net OPEB obligation/(asset) for the fiscal year ended June 30, 2012, and the preceding two fiscal years were as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation/(Asset)</u>

FUNDED STATUS AND FUNDING PROGRESS:

Act 910 of the 2008 Regular Session established the Postemployment Benefits Trust Fund effective July 1, 2008; however, neither the Legislative Budgetary Control Council nor the State of Louisiana has ever made contributions to it. Since the plan has not been funded, the Legislative Budgetary Control Council's entire actuarial accrued liability of \$82,100 for the OGB Plan was unfunded. The LSU System Health Plan does not use a trust fund to administer the financing of the plan and the payment of benefits.

The funded status of the plans, as determined by actuaries as of July 1, 2011, was as follows:

	<u>Office of Group Benefits Plan</u>	<u>LSU System Health Plan</u>
Actuarial accrued liability (AAL)	\$ 82,100	\$ 81,221
Actuarial value of plan assets	--	--

ACTUARIAL METHODS AND ASSUMPTIONS:

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities consistent with the long-term perspective of the calculations.

A summary of the actuarial assumptions is presented below:

	<u>LSU System Health Plan</u>	<u>State OGB Plan</u>
Actuarial valuation date	July 1, 2011	July 1, 2011
Actuarial cost method	Projected Unit Credit	Projected Unit Credit

9. OTHER COSTS:

The State of Louisiana, through other appropriations, provides office space, utilities, and janitorial services for the operations in the State Capitol, all of which are not included in the accompanying financial statements.

10. RECONCILIATION:

The Statement of Net Assets and Statement of Activities present the Legislative Budgetary Control Council's fund balance/net assets from a fund perspective and an entity-wide perspective, using the current financial resources focus for the fund balance and the economic resources measurement focus for net assets. The amounts are reconciled as follows:

Fund Balance, June 30, 2012	\$ 33,164,420
Compensated absences	(41,338)
Other postemployment benefits payable	<u>(26,770)</u>
Net Assets, June 30, 2012	<u>\$ 33,096,312</u>

11. ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

12. UNWARRANTED APPROPRIATIONS:

The unwarranted appropriation and appropriation authorized and collected during the year are summarized as follows:

13. RISK MANAGEMENT:

The Legislative Budgetary Control Council limits its exposure to risk of loss through the Office of Risk Management, a statewide insurance program. Through the payment of premiums to the program, the Legislative Budgetary Control Council transfers the risk of loss from theft, torts, damage to and destruction of assets, workers' compensation, errors and omissions, and natural disasters.

14. FUND BALANCE:

As of June 30, 2012, the Legislative Budgetary Control Council has an unassigned balance of \$17,883,841. The Fund balance also includes amounts classified as restricted and assigned for the following purposes:

Restricted:

Legislative capitol technology enhancement fund	\$ 7,961,600
State capitol HVAC replacement & renovations	4,993,931

Explanation of differences:

- (1) Budgets include reappropriated fund balances carried over from prior years to cover expenditures of the current year. The results of operations on a GAAP basis do not recognize these amounts as revenue since they represent prior period's excess of revenues over expenditures.
- (2) Personnel services and related benefits are budgeted only to the extent expected to be paid, rather than on the modified accrual basis.
- (3) The amount reported as "fund balance" on the budgetary basis of accounting derives from the basis of accounting used in preparing the budget. (See Note 1 for a description of the Council's budgetary accounting method.) This amount differs from the fund balance reported in the Statement of Revenues, Expenditures, and Changes in Fund Balances because of the cumulative effect of transactions such as those described above.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

November 27, 2012

Honorable John A. Alario, Jr., Co-Chair  
Honorable Charles E. Kleckley, Co-Chair  
Legislative Budgetary Control Council  
State of Louisiana  
Baton Rouge, Louisiana

Board of Trustees:

We have audited the financial statements of the Legislative Budgetary Control Council, State of Louisiana, as of and for the year ended June 30, 2012, and have issued our report thereon dated November 27, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Legislative Budgetary Control Council, State of Louisiana, is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Legislative Budgetary Control Council, State of Louisiana's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Legislative Budgetary Control Council, State of Louisiana's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Legislative Budgetary Control Council, State of Louisiana's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Legislative Budgetary Control Council, State of Louisiana's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Council's management and the Louisiana Legislative Auditor and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
